**Subject:** Huckabee-Haak

Hi [REDACTED] I'm sorry I didn't get to meet you today. I happened to show up right in the middle of lunch hour. I always remember about halfway to Tallahassee that I'm leaving from the Central time zone but arriving in the Eastern.

The only thing I wanted to point out to you was the loose attachments on top of the permit packages. Those are drawings and 2004 Google images of the lot (Lot 1) immediately to the west of the two lots we're working on. The southern section of this house was destroyed by Hurricane Dennis and the owner just cut it off and walled up the south side. When you're looking at site lines and views for the projects, I just wanted to point out that this house could probably be rebuilt in its original footprint.

As I mentioned to you earlier, one of these lots is for Mike Huckabee, the former governor of Arkansas and Presidential candidate. Needless to say, we're getting a lot of subtle pressure to move the permit process along as quickly as possible. Any help with compressing the review schedule would be sincerely appreciated. If it would help with the process, I can still come over and sit down with you to answer any questions.

As always, thanks for your help.

Terry
